

Pot of Gold at the End of the Rainbow

Materials:

- 1 Glue stick or bottle of glue
- Construction paper: 1 each of white, black, red, orange, yellow, green and blue
- 3 or 4 cotton balls
- 1 plastic coin
- 1 white crayon or color pencil
- 1 marker, crayon or colored pencil
- Scissors

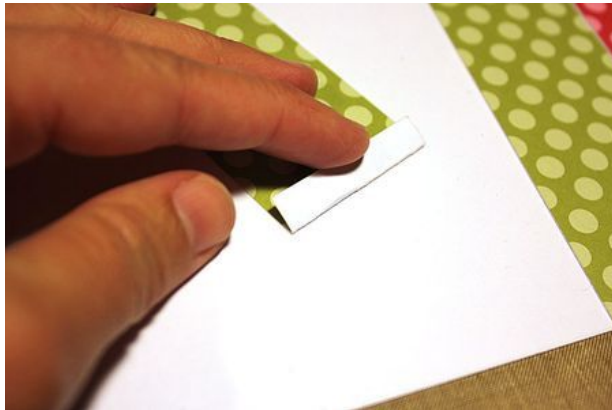

1. Gather your materials. The white sheet of paper will be your base.

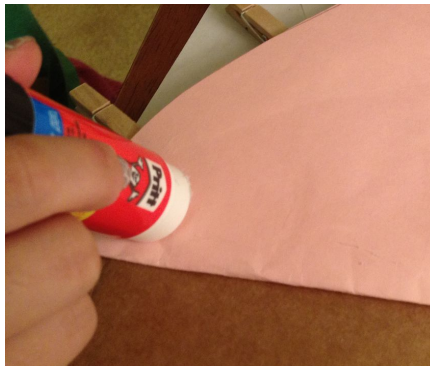

2. Cut 1 strip of paper from each of these colors: red, orange, yellow, green, and blue.

3. Fold both ends of the red strip of paper.

4. Glue one end of the red paper onto the left side of your white paper.

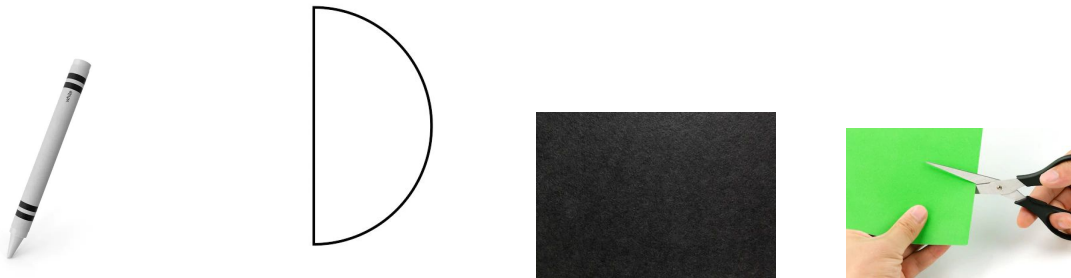

5. Glue the other end of your red strip onto the right side of your white paper, making an arch. Repeat with the other strips of paper. This is your rainbow.

6. Glue cotton balls onto the left side of your rainbow. These are your clouds.

7. Use the white crayon to draw a half circle on your black paper. Cut it out. This will be your pot of gold.

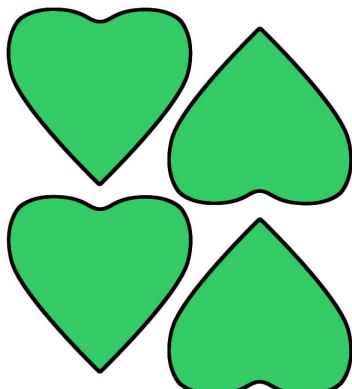

8. Glue your pot of gold onto the right side of the rainbow.

9. Take the plastic coin and glue it onto your pot.

10. If you want a shamrock, cut out four hearts and glue the points together.

11. Write HAPPY ST. PATRICK'S DAY with your marker.

HAPPY ST. PATRICK'S DAY!
